

Inspira Health is an innovative, award winning healthcare service provider which was established in 2010. Working in partnership with NHS providers, NHS commissioners and industry partners to provide seamless, high quality, integrated care pathways for patients which are precisely tailored to their individual needs.

PCAF is a Consultant Cardiologist-led service which results in more patients accessing anticoagulation therapy, reducing their risk of an AF-related stroke; and therefore reducing the incidence of stroke within the practice population

PCHF is a Consultant Cardiologist-led service that identifies, diagnoses and treats patients with Heart Failure with severe Left Ventricular Systolic Dysfunction

PCSP is a Consultant Cardiologist-led service providing a comprehensive review of a patients cardiovascular risk and ensuring patients are on optimal medical therapy and are educated about their lifestyle choices; resulting in improved patient outcomes

PCDN is a Specialist-led service with the aim of improving patient outcomes; and increases GP knowledge, awareness and confidence in current evidence-based treatment strategies for diabetic nephropathy disease

Supporting GP Practices to deliver NHS Health Checks for those aged 40 to 74 living in England who do not have an existing vascular condition, and who are not currently being treated for certain risk factors. It is aimed at preventing heart disease, stroke, diabetes and kidney disease.
